

2023 Humalog and Humulin Limited Duration Rebate Program Announcement

On March 1st, 2023, Lilly USA, LLC announced that it will reduce the Wholesale Acquisition Cost (WAC) of multiple Humalog and Humulin NDCs*. The announcement builds on years of efforts by Lilly to close the gaps in the U.S. healthcare system that caused some people with diabetes to pay list price for their insulin.

Lilly USA recognizes that changes in the list price of prescription medications may have implications for the channel, particularly for pharmacies who dispense these medications to patients.

In an effort to avoid supply chain and patient access disruptions that could result from the channel's response to these WAC price decreases, **Lilly USA LLC will be offering a Limited Duration Rebate Program for certain Humalog and Humulin NDCs (referenced below) during the period of December 15th – December 29th, 2023 through Lilly Authorized Distributors of Record (ADR). During this period, eligible customers may receive a rebate on WAC purchases of the Humalog and Humulin NDCs listed below from Lilly Authorized Distributors of Record.** Lilly will not be offering a “shelf stock adjustment” after the Humalog and Humulin NDC price decreases on December 30, 2023.

- To receive the rebate, eligible customers should purchase Eligible Products from a Lilly ADR as they normally do during the limited duration period of December 15th – December 29th, 2023.
- Lilly will partner with Lilly ADRs to credit eligible customers the rebate amount on eligible purchases after a validation process.
- **Eligible Product purchased at any contracted or up-front discount greater than 5% off of WAC (except for discounts which may be available from wholesaler subject to agreement between customer/wholesaler) will not be eligible for this rebate.**

The expectation is that the validation and credit process for rebates under the Limited Duration Rebate Program will be completed in a timely manner.
